

# WELCOME to the Haulaway autumn newsletter 2017

## Introducing **Woollycrete**

Since May we have been providing ready mix concrete via volumetric and drum mixers. We are pleased to be able to offer our customers this new service as we continue our quest to being a one stop shop for all your waste needs! For more information please call our usual number and select option 2 to speak with Matt or Emma.

Our drum mixer servicing the new Lidl store at Polegate.

## Permission to expand!

We are currently seeking planning permission to expand our Polegate Distribution Centre and construct a materials recovery facility. Subject to this permission being granted, this could be a whole new era for the district in the way that local waste is managed. Check our facebook and twitter pages for the latest updates on this exciting news.

## Papers for St Wilfrid's

Our kerbside recycling scheme raising money for St Wilfrid's is fast approaching a donation amount of £7,000 so we are well on our way to our target of donating £10,000 by our two year anniversary in May! Since we began collecting we have also ensured that 154 tonnes of paper and cardboard have been sustainably recycled. We extend our gratitude to the residents of Hailsham taking part in this scheme for making this all possible.
