

What's In The Bin

The Haulaway News letter

Issue 1.

A big thank you to all our account customers for your support throughout 2014. And a Happy Prosperous New Year to all.

Looking ahead for 2015

As we enter a new and exciting year we are pleased to inform you that for the third consecutive year, and with the full support of our customer base, Haulaway Ltd will be reinvesting over £1.1 million pounds in new equipment and recycling services to assist with the needs of recycling in today's climate. We would also like to acknowledge the support from ESCC as we have now obtained planning permission on our second site at Polegate. Building works to construct a purpose built baling and loading distribution centre began in earnest in November with a completion due in March-April 2015. This will increase our recycling capabilities that will help our customers, old and new, to achieve excellent recycling rates and needs as well as combating the ever increasing landfill tax that businesses incur with regards to waste management.

A Brand New Service

Also in March-April Haulaway will be introducing a new collection service. This will be bulk bags designed to help customers recycle cardboard, construction films and plastics. Regular collections will be made for these to ensure that premises are kept clean and tidy. Please contact our office for details of this unique service.

New Vehicles

We will have a second eight wheel grab hire truck going into service on 1st February to assist with demand along with two new skip trucks as we continue to update and expand our fleet to meet the needs of our customer's requests.

Customer Feedback

We are always looking for ways to improve our service and wish to encourage our customers to give us feedback on any element of our business.

Evolving in terms of capability, performance and sustainability to help both our companies.
